

CAMPUS SEXUAL VIOLENCE PROJECT

FORUM THEATRE PRESENTATIONS

You're invited to participate in a **nationwide research study** exploring **how Canadian universities respond to sexual violence**.

At these gatherings for creative and critical dialogue, you'll watch actors present **dramatized scenes depicting how students and instructors** see their universities responding to sexual violence.

You'll then be invited to discuss those scenes. If you like, you'll also have the chance to **step into the action yourself, to intervene and explore different avenues** for activism and allyship for institutional change.

Forums will be facilitated by artists from Toronto's **Mixed Company Theatre - Creating Theatre for Social Change**.
