Scheduling-billing system re-branded as BookMyLab for Core Facilities.

 1) Complimentary Customization is now done as per your needs.

2) A new "Plan II" for our Enterprise version which has a One-time software fee.

3) A new "On-site version" for cores that want on-site installation on their internal or private networks

Dear Natasa:

Thanks for replying.

With these new versions, we provide free customization for the cores. This in turn would mean that we can try to customize the software to cater to the needs of all the users. I hope this is something that would make it easy to convince users to use our system.

Please let me know if you have any questions. Also, if you'd like to discuss in more detail over the phone, do let us know your availability and we would be happy to reach you at your convenience.

Thank you,

Best,

Ron
