

Harvester

Accession Number:

Parentage:
Sylvia x Melba

Released by:
Dr. C.F. Patterson, University of Saskatchewan, Saskatoon SK

Date:
1960

Notes:
Fruit 5.2cm. cream, blushed and striped. Midseason. Dry and insipid taste. Doesn't keep.

-Edible Apples in Prairie Canada

Up to 1 7/8 inches on thinned trees with up to 50 percent blush. A fine white fleshed, not very juicy, mild tasting apple. May lack too much in quality from its mild, almost insipid taste.

-The Gardeners Bulletin, Nelson, 1964
