

Jens Müller

Curriculum Vitae

born in Biedenkopf, Germany, October 15th 1962

Müller, Mueller, or Muller? The original name is written with an Umlaut (Müller), but the translation of my name in North America is Mueller. It is confusing as with search engines (like ISI Web of Science) one has to use the name Muller.

However, I am so glad that my name tag in front of my office has it all!
