

Clinical Neuroscience GRAND ROUNDS

10:00

Dr. Uzair Ahmed, PGY6
Neurosurgery Residency Program
University of Saskatchewan

“Reflections on Residency”

11:00

V. Wee Yong, PhD
Associate Professor
University of Calgary

“Repurposing generic medications for multiple sclerosis: rationale and challenges”

Objectives:

1. Review the neuroimmunology of multiple sclerosis (MS)
2. Understand why minocycline, hydroxychloroquine and indapamide have been repurposed for MS
3. Review other generic medications of potential utility in neurology
4. Discuss challenges in repurposing generic drugs

Friday, January 17 at 10:00 AM
SaskTel Theatre, Royal University Hospital
